

- Leading innovation with its continued **fight against SPAM**
- Introduced **All-in-one OTT** entertainment packs for prepaid users

5th August 2025

The financial statements included in this quarterly report fairly present in all material respects the financial position, results of operations, cash flow of the company as of and for the periods presented in this report.

Bharti Hexacom Limited

(Incorporated as a public limited company on April 20, 1995 under the Companies Act, 1956)
Airtel Center, Plot No. 16, Udyog Vihar, Phase-IV,
Gurugram – 122015, India

Supplemental Disclosures

Safe Harbor: - Some information in this report may contain forward-looking statements. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as “believe,” “plan,” “anticipate,” “continue,” “estimate,” “expect,” “may,” “will” or other similar words.

A forward-looking statement may include a statement of the assumptions or basis underlying the forward-looking statement. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution you that forward-looking statements and assumed facts or basis almost always vary from actual results, and the differences between the results implied by the forward-looking statements and assumed facts or basis and actual results can be material, depending on the circumstances. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as of the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this report after the date hereof. In light of these risks and uncertainties, any forward-looking statement made in this report or elsewhere may or may not occur and has to be understood and read along with this supplemental disclosure.

General Risk: - Investment in equity and equity related securities involves a degree of risk and investors should not invest any funds in this Company without necessary diligence and relying on their own examination of Bharti Hexacom, along with the equity investment risk which doesn't guarantee capital protection.

Convenience translation: - We publish our financial statements in Indian Rupees. All references herein to “Indian Rupees” and “Rs” are to Indian Rupees and all references herein to “US dollars” and “US\$” are to United States dollars. Translation of income statement items have been made from Indian Rupees to United States dollars (unless otherwise indicated) using the respective quarter average rate. Translation of Statement of financial position items have been made from Indian Rupees to United States dollars (unless otherwise indicated) using the closing rate. The rates announced by the Reserve Bank of India are being used as the Reference rate for respective translations. All amounts translated into United States dollars as described above are provided solely for the convenience of the reader, and no representation is made that the Indian Rupees or United States dollar amounts referred to herein could have been or could be converted into United States dollars or Indian Rupees respectively, as the case may be, at any particular rate, the above rates or at all. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding off.

Use of Certain Non-GAAP measures: - This result announcement contains certain information on the Company's results of operations and cash flows that have been derived from amounts calculated in accordance with Indian Accounting Standards (Ind-AS) but are not in themselves Ind-AS measures. They should not be viewed in isolation as alternatives to the equivalent Ind-AS measures and should be read in conjunction with the equivalent Ind-AS measures.

Further disclosures are also provided under “7.3 Use of Non - GAAP Financial Information” on page 15.

Others: In this report, the terms “we”, “us”, “our”, “Hexacom”, or “the Company”, unless otherwise specified or the context otherwise implies, refer to Bharti Hexacom Limited (“Bharti Hexacom”), its parent Bharti Airtel Limited and fellow subsidiaries, joint ventures & associates Bharti Airtel Services Limited, Bharti Telemedia Limited, Airtel Limited, Nxtra Data Limited, Nxtra Africa Data RDC S.A., Xtelify Limited (formerly known as Airtel Digital Limited), Indus Towers Limited, Airtel Payments Bank Limited, Indus Towers Employees Welfare Trust, Hughes Communications India Private Limited, Indo Teleports Limited (formerly known as Bharti Teleports Limited), Lavelle Networks Private Limited, Seychelles Cable Systems Company Limited, One web India Communications Private. SECTION 2

BHARTI HEXACOM - AN INTRODUCTION

2.1 Introduction

Our Company was originally incorporated in 1995 as 'Hexacom India Limited'. In 2004, the name of our Company was changed to Bharti Hexacom Limited' when Airtel acquired a majority equity interest in our Company.

We are a communications solutions provider offering consumer mobile services, fixed-line telephone and broadband services to customers in the Rajasthan and the Northeast telecommunication circles in India, which comprises the states of Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland and Tripura. We offer our services under the brand 'Airtel'. We have a distinct strategy to premiumise our portfolio by acquiring and retaining quality customers and delivering an experience to them through our Omni channel approach and use of data science. We have a gamut of digital offerings to enhance customer engagement and differentiated customized offerings through family and converged plans under Airtel Black proposition, which has resulted in the continuous improvement of our revenue market share during the last three Fiscals. We undertake prudent cost optimization measures to improve our profitability and maintain an efficient capital structure with a comfortable leverage position. We continuously invest in network expansion, technology advancement and judicious spectrum investments.

The shares of Bharti Hexacom Ltd are listed on the Indian Stock Exchanges- NSE & BSE.

2.2 Business Divisions

Mobile Services –We offer postpaid, pre-paid, roaming, internet and other value added services. Our distribution channel is spread

across 58 retail outlets and 24 small format stores with network presence in 488 census and 67,927 non-census towns and villages in India with population coverage of 96.5%.

Our services are spread across Rajasthan and Northeast offering high-speed internet access and a host of innovative services like Airtel TV, video calls, live-streaming videos, gaming, buffer-less HD video streaming and multi-tasking capabilities to our customers.

Homes and Office Services – The Company provides fixed-line telephone and broadband services for homes in 115 cities (including LCOs) in Rajasthan and Northeast. The product offerings include high-speed broadband, fiber and voice connectivity, up to the speed of 1 Gbps for the home segment.

2.3 Partners

The key agreements with the active network partners include equipment supply contracts and service contracts. The equipment supply contracts cover the supply of hardware, software and other electronic equipment required to set up and expand our mobile network. The service contracts provide for the services in relation to deployment of the equipment deployed under the equipment supply contracts. We have minimized our dependence on any single network partner to provide critical network services and we work with several entities including Ericsson, Nokia, Google and Ceragon, etc.

SECTION 3

FINANCIAL HIGHLIGHTS

MANAGEMENT DISCUSSION AND ANALYSIS

5.1 Key Company Developments

- Bharti Hexacom, in collaboration with Bharti Airtel, partnered with Google to offer Bharti Hexacom's postpaid and Wi-Fi customers 100 GB of Google One cloud storage free for six months. This initiative addresses growing device storage challenges by enabling users to securely back up photos, videos, documents, and WhatsApp chats, simplifying data management and device switching. The cloud storage is compatible with both Android and iOS platforms and can be shared with up to five additional people at no extra cost. After the six-month free period, customers can continue the subscription for ₹125 per month or opt out anytime. Users can activate the offer via the Airtel Thanks app. This collaboration aims to provide millions of Bharti Hexacom customers with a reliable, secure, and user-friendly storage solution, enhancing their digital lifestyle by ensuring ample space for personal and professional data.
- Bharti Hexacom, in collaboration with Bharti Airtel, enhanced its AI-powered spam detection tool with two major upgrades – language alerts and international spam call alerts. Customers can now receive spam alerts for calls and SMS in nine Indian languages, including Hindi, Marathi, Bengali, and Tamil, catering to India's linguistic diversity. Additionally, the tool now screens and alerts users about spam originating from international networks, addressing a 12% rise in overseas spam calls over the past six months. These features, free for

all Bharti Hexacom customers and auto-activated without any service request, are currently available on Android devices. Bharti Hexacom remains committed to evolving its solutions based on customer feedback and staying ahead of emerging spam threats through continuous innovation.

- Bharti Hexacom, launched new entertainment packs for prepaid customers, offering access to over 25 leading OTT platforms—including Netflix, JioHotstar, Zee5, SonyLiv, and more—starting at ₹279 for one month. This pack, valued at ₹750, is India's most extensive OTT bundle from a telco, providing a wide range of international, Bollywood, and regional content in over 16 languages. It also offers bundled plans combining unlimited 5G data and calls with OTT access, starting at ₹598 for 28 days. These consolidated packs simplify streaming by allowing customers to enjoy diverse content from multiple platforms through a single subscription, enhancing convenience, flexibility, and value for prepaid users.
- Bharti Hexacom Limited has signed definitive agreements with Adani Data Networks Limited to acquire rights to 50 MHz of spectrum in the 26 GHz band in Rajasthan. The transaction is pending standard regulatory approvals and fulfillment of conditions outlined in the Spectrum Trading Guidelines.

5.2 Results of Operations

Key Highlights – For the quarter ended June 30, 2025

- Overall customer base at 28.65 Mn (up 2.6% YoY)
- Mobile data traffic at 1,824 PBs (up 23.8% YoY)
- Total revenues of Rs 22.6 Bn; up by 18.4% YoY
- EBITDA at Rs 12.2 Bn; up 33.5%YoY; EBITDA margin is 53.8%, up by 6.1% YoY
- EBIT at Rs 6.8 Bn; up by 62.8% YoY; EBIT margin is 29.9% up by 8.2% YoY
- Net income (before exceptional items) at Rs 3.9 Bn vis-à-vis Rs 1.9 Bn in the corresponding quarter last year
- Net income (after exceptional items) at Rs 3.9 Bn vis-à-vis Rs 5.1 Bn in the corresponding quarter last year

5.2.1 Results for the quarter ended June 30, 2025

As on June 30, 2025, the Company had 28.65 Mn customers, an increase of 2.6% as compared to 27.92 Mn in the corresponding quarter last year. Total minutes of usage on the network during the quarter were 93 Bn, representing a growth of 4.5% as compared to 89 Bn in the corresponding quarter last year. Smartphone data customer base stood at 21.8 Mn, increased by 0.3 Mn QoQ and 1.6 Mn YoY. Mobile Data traffic grew 23.8% to 1,824 PBs during the quarter as compared to 1,473 PBs in the corresponding quarter last year. Average mobile data usage per customer increased by 14.5% YoY to 29.4 GB/month as compared to 25.7 GB/month in the corresponding quarter last year.

By the end of the quarter, the company had 26,490 network towers as compared to 25,972 network towers in the corresponding quarter last year. The Company had total 81,874 mobile broadband base stations as compared to 80,500 mobile broadband base stations at the end of the corresponding quarter last year and 81,840 at the end of the previous quarter. Further, the Company had Homes operations in 115 cities (including LCOs). Homes &

Offices segment witnessed a revenue growth of 38.0% YoY and customer net additions of 54K during the quarter to reach a total base of 502K in Q1'26. On a YoY basis, the customer base increased by 56.3%.

Revenues for the quarter stood at Rs 22,630 Mn, up by 18.4% vis-à-vis Rs 19,106 Mn in the corresponding quarter last year.

Net revenues, after netting off access costs, license fees and cost of goods sold, stood at Rs 18,673 Mn, up 23.5% as compared to Rs 15,122 Mn in the corresponding quarter last year.

The Net Debt-EBITDA ratio (annualized) and including the impact of leases for the quarter June 30, 2025 stood at 1.30 times as compared to 1.49 times in the previous quarter. The Net Debt-EBITDAaL ratio (annualized) and excluding the impact of leases for the quarter June 30, 2025 stood at 0.65 times as compared to 0.87 times in the previous quarter.

5.3 Bharti Hexacom's Three Line Graph

The Company tracks its performance on a three-line graph.

The parameters considered for the three-line graph are:

1. Total Revenues i.e. absolute turnover/sales
2. Opex Productivity – this is computed by dividing operating expenses by the total revenues for the respective period. Operating expenses is the sum of (i) employee costs (ii) network operations costs and (iii) selling, general and

administrative costs. This ratio depicts the operational efficiencies in the Company

3. Capex Productivity – this is computed by dividing LTM revenue by gross cumulative capex (gross fixed assets and capital work in progress) till date i.e. the physical investments made in the assets creation of the Company. This ratio depicts the asset productivity of the Company.

Given below are the graphs for the last five quarters for the Company:

SECTION 10

KEY ACCOUNTING POLICIES AS PER Ind-AS

- **Property, Plant and equipment**

Property, plant and equipment (PPE) are stated at cost, net of accumulated depreciation and impairment loss. All direct costs relating to the acquisition and installation of property and equipment are capitalized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets.

Assets	Years
Buildings	20
Building on leased land	Lease term or 20 years, whichever is less
Network equipment	3 – 25
Customer premises equipment	3 – 5
Computer equipment & Servers	3 – 5
Furniture & fixture and office equipment	2 – 5
Vehicles	3 – 5
Leasehold improvements	Lease term or 20 years, whichever is less

The useful lives, residual values and depreciation method of PPE are reviewed, and adjusted appropriately, at-least as at each financial year so as to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets.

Costs of additions and substantial improvements to property and equipment are capitalized. The costs of maintenance and repairs of property and equipment are charged to operating expenses.

- **Other Intangible assets**

Intangible assets are recognized when the Company controls the asset, it is probable that future economic benefits attributed to the asset will flow to the Company and the cost of the asset can be measured reliably.

Other intangible assets are recognized at cost. Those assets having finite useful life are carried at cost less accumulated amortization and impairment losses, if any. Amortization is computed using the straight-line method over the expected useful life of intangible assets.

The Company has established the estimated useful lives of different categories of intangible assets as follows:

a. Licenses (including spectrum)

Acquired licenses and spectrum are amortized commencing from the date when the related network is available for intended use in the relevant jurisdiction. The useful lives range upto twenty five years.

The revenue-share based fee on licenses / spectrum is charged to the statement of profit and loss in the period such cost is incurred.

b. Software: Software are amortized over the period of license, generally not exceeding five years.

The useful lives and amortization method are reviewed, and adjusted appropriately, at least at each financial year end so as to ensure that the method and period of amortization are consistent with the expected pattern of economic benefits from these assets. The effect of any change in the estimated useful lives and / or amortization method is accounted prospectively, and accordingly the amortization is calculated over the remaining revised useful life.

Further, the cost of intangible assets under development includes the borrowing costs that are directly attributable to the acquisition or construction of qualifying assets and are presented separately in the Balance Sheet.

- **Leases**

The Company, at the inception of a contract, assesses the contract as, or containing, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether the contract involves the use of an identified asset, the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and the Company has the right to direct the use of the asset.

Company as a lessee

The Company recognizes a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee in the Balance Sheet. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using incremental borrowing rate (as the rate implicit in the lease cannot be readily determined). Lease liabilities include the net present value of fixed payments (including any in-substance fixed payments), any variable lease payments that are based on consumer price index ('CPI'), the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Subsequently, the lease liability is measured at amortized cost using the effective interest method. It is re-measured when there is a change in future lease payments including due to changes in CPI or if the company changes its assessment of whether it will exercise a purchase, extension or termination option or when the lease contract is modified and the lease modification is not accounted for as a separate lease. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the related right-of-use asset has been reduced to zero.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability, any lease payments

made at or before the commencement date, any initial direct costs less any lease incentives received.

Subsequent to initial recognition, right-of-use asset are stated at cost less accumulated depreciation and any impairment losses and adjusted for certain re-measurements of the lease liability. Depreciation is computed using the straight-line method from the commencement date to the end of the useful life of the underlying asset or the end of the lease term, whichever is shorter. The estimated useful lives of right-of-use assets are determined on the same basis as those of the underlying property and equipment.

In the Balance Sheet, the right-of-use assets and lease liabilities are presented separately.

When a contract includes lease and non-lease components, the Company allocates the consideration in the contract on the basis of the relative stand-alone prices of each lease component and the aggregate stand-alone price of the non-lease components.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Company as a lessor

Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under a finance lease are recognized as receivables at an amount equal to the net investment in the leased assets. Finance lease income is allocated to the periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the finance lease.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight line basis over the lease term.

When a contract includes lease and non-lease components, the Company applies Ind AS 115 'Revenue from Contracts with Customers' to allocate the consideration under the contract to each component.

The Company enters into 'Indefeasible right to use' ('IRU') arrangements wherein the right to use the assets is given over the substantial part of the asset life. However, as the title to the assets and the significant risks associated with the operation and maintenance of these assets remains with the Company, such arrangements are recognized as operating lease. The contracted price is recognized as revenue during the tenure of the agreement. Unearned IRU revenue received in advance is presented as deferred revenue within liabilities in the Balance Sheet.

- **Revenue recognition**

Revenue is recognized upon transfer of control of promised products or services to customer at the amount of transaction price (net of variable consideration) which the Company has received or expects to receive in exchange of those products or services, net of any taxes / duties, discounts and process waivers. In order to determine if it is acting as a principal or as an agent, the Company assesses whether it is primarily responsible for fulfilling the performance obligation and whether it controls the promised service before transfer to customers. Revenue is recognised when, or as, each distinct performance obligation is satisfied. The main categories of revenue and the basis of recognition are as follows:

(i) Service revenues

Service revenues mainly pertain to usage, subscription and customer onboarding for voice, data, messaging and value added services. It also includes revenue from interconnection / roaming charges for usage of the Company's network by other operators for voice, data, messaging and signaling services which are recognized upon transfer of control of services over time. Usage charges are recognized based on actual usage. Subscription charges are recognized over the estimated customer relationship period or subscription pack validity period, whichever is lower. Customer onboarding revenue and associated cost is recognized upon successful onboarding of customer i.e. upfront. Revenues in excess of invoicing are classified as unbilled revenue while invoicing / collection in excess of revenue are classified as deferred revenue / advance from customer.

The billing / collection in excess of revenue recognized is presented as deferred revenue in the Balance Sheet whereas unbilled revenue is recognized under other current financial assets. Certain business services revenue include revenue from registration and installation, which are amortized over the period of agreement since the date of activation of service.

Revenues from long distance operations comprise of voice services and bandwidth services (including installation), which are recognized on provision of services and over the period of respective arrangements.

(ii) Multiple element arrangements

The Company has entered into certain multiple-element revenue arrangements which involve the delivery or performance of multiple products, services or rights to use assets. At the inception of the arrangement, all the deliverables therein are evaluated to determine whether they represent distinct performance obligations and if so, they are accounted for separately.

Total consideration related to the multiple element arrangements is allocated to each performance obligation based on their standalone selling prices.

(iii) Interest Income

The interest income is recognized using the effective interest rate method.

- **Cost to obtain or fulfill a contract with a customer**

The Company incurs certain cost or fulfill contract with the customer viz. intermediary commission, etc. where based on Company's estimate of historic average customer life derived from customer churn rate is longer than 12 months, such costs are deferred and are recognized over the average expected customer life.

- **Exceptional items**

Exceptional items refer to items of income or expense within the statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

- **Taxes**

Current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date.

Deferred tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. However, deferred tax are not recognized if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Further, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. Moreover, deferred tax is recognized on temporary differences arising on investments in subsidiaries, joint ventures and associates - unless the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The unrecognized deferred tax assets / carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately.

SECTION 11

GLOSSARY

Technical and Industry Terms

Company Related

Asset Turnover	Asset Turnover is defined as total revenues, for the preceding (last) 12 months from the end of the relevant period, divided by average assets. Asset is defined as the sum of non-current assets and net current assets. Net current assets are computed by subtracting current liabilities from current assets. Average assets is calculated by considering average of Opening and closing assets for the relevant period.
Average Customers	Average customers are derived by computing the average of the monthly average customers for the relevant period.
Average Towers	Average towers are derived by computing the average of the Opening and Closing towers for the relevant period.
Book Value Per Equity Share	Equity attributable to the holder's of parent as at the end of the relevant period divided by outstanding equity shares as at the end of the relevant period.
Capex	It includes investment in gross fixed assets, intangibles and capital work in progress for the period.
Capital Employed	Capital Employed is defined as sum of equity and net debt.
Cumulative Investments	Cumulative Investments comprises of gross value of property, plant & equipment (including CWIP & capital advances) and intangibles.
Cash Profit From Operations before Derivative & Exchange Fluctuation	It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for interest expense before adjusting for derivative & exchange (gain)/ loss.
Churn	Churn is calculated by dividing the total number of disconnections during the relevant period by the average customers; and dividing the result by the number of months in the relevant period.
Customer Base	Customers generating revenue through recharge, billing or any outgoing activity.
Data Customer Base	A customer who used at least 1 MB on GPRS / 4G network in the last 30 days.
Data Usage per Customer	It is calculated by dividing the total MBs consumed on the network during the relevant period by the average data customer base; and dividing the result by the number of months in the relevant period.
Earnings Per Basic Share	It is computed by dividing net income attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period.
Earnings Per Diluted Share	<p>The calculation of Net Profit/ (loss) per diluted share adjusts net profit or loss and the weighted average number of ordinary shares outstanding, to give effect to all dilutive potential ordinary shares that were outstanding during the year.</p> <p>Net profit or loss attributable to ordinary shareholders is adjusted for the after-tax effect of the following: (1) dividends on potential ordinary shares (for example, dilutive convertible preferred shares); (2) interest recognized on potential ordinary shares (for example, dilutive convertible debt); and (3) any other changes in income or expense resulting from the conversion of dilutive potential ordinary shares (e.g., an entity's contribution to its non-discretionary employee profit-sharing plan may be revised based on changes in net profit due to the effects of items discussed above).</p>
EBITDA	Earnings/ (loss) before interest, taxation, depreciation and amortization. It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for Charity & Donation cost, finance income (part of other income) and license fees on finance income.

EBITDAaL	Earnings/ (loss) before interest, taxation, depreciation and amortization. It is not an Ind-AS measure and is defined as profit from operating activities before depreciation, amortization and exceptional items adjusted for interest on lease liabilities and repayment of lease liabilities, Charity & Donation cost, finance income (part of other income) and license fees on finance income.
EBITDA Margin	It is computed by dividing EBITDA for the relevant period by total revenues for the relevant period.
EBITDAaL Margin	It is computed by dividing EBITDAaL for the relevant period by total revenues for the relevant period.
EBIT	EBITDA adjusted for depreciation and amortization.
Enterprise Valuation (EV)	Calculated as sum of Market Capitalization, Net Debt and finance lease obligations as at the end of the relevant period.
EV / EBITDA (times)	For full year ended March 31 2023, 2024 and 2025, It is computed by dividing Enterprise Valuation as at the end of the relevant period (EV) by EBITDA for the relevant period (LTM). For quarterly computation, Computed by dividing Enterprise Valuation as at the end of the relevant period (EV) by annualized EBITDA for the relevant period.
Finance Lease Obligation (FLO)	Finance Lease Obligation represents present value of future obligation for assets taken on finance lease.
Interest Coverage Ratio	EBITDA for the relevant period divided by interest on borrowing for the relevant period.
Market Capitalization	Number of issued and outstanding shares as at end of the period multiplied by closing market price (BSE) as at end of the period.
Mobile Broadband Base stations	It includes all the 4G Base stations deployed across all technologies i.e. 900/1800/2100/2300 Mhz bands.
Smartphone data Customer	A customer who used at least 1 MB on 4G/5G network in the last 30 days.
Mobile Broadband Towers	It means the total number of network towers (defined below) in which unique number of either 3G or 4G Base stations are deployed, irrespective of their technologies. Total numbers of Mobile Broadband Towers are subset of Total Network Towers.
Minutes on the network	Duration in minutes for which a customer uses the network. It is typically expressed over a period of one month. It includes incoming, outgoing and in-roaming minutes.
Network Towers	Comprises of Base Transmission System (BTS) which holds the radio trans receivers (TRXs) that define a cell and coordinates the radio links protocols with the mobile device. It includes all the Ground based, Roof top and In Building Solutions as at the end of the period.
Net Debt	It is not an Ind-AS measure and is defined as the long-term debt, net of current portion plus short-term borrowings, current portion of long-term debt and lease liabilities minus cash and cash equivalents and investments.
Net Debt (excluding lease obligations)	It is not an Ind-AS measure and is defined as the long-term debt, net of current portion plus short-term borrowings, and current portion of long-term debt minus cash and cash equivalents and investments. The debt origination cost and Bond fair value hedge are not included in the borrowings.
Net Debt to EBITDA (Annualized)	For the full year ended March 31 2023, 2024 and 2025, it is Computed by dividing net debt at the end of the relevant period by EBITDA for the relevant period (LTM).For Quarterly computation, It is computed by dividing net debt as at the end of the relevant period by EBITDA for the relevant period (annualized).
Net Debt (excluding lease obligations) to EBITDAaL (Annualized)	For the full year ended March 31 2023, 2024 and 2025, it is Computed by dividing net debt (Pre Ind AS 116) at the end of the relevant period by EBITDAaL for the relevant period (LTM). For Quarterly computation, It is computed by diving net debt (Pre Ind AS 116) as at the end of the relevant period by EBITDAaL for the relevant period (annualized).

Net Debt to Funded Equity Ratio	It is computed by dividing net debt as at the end of the relevant period by Equity attributable to equity holders of parent as at the end of the relevant period.
Net Revenues	It is not an Ind-AS measure and is defined as total revenues adjusted for access charges, cost of goods sold and license fees for the relevant period.
Operating Free Cash flow (EBITDA – Capex)	It is computed by subtracting capex from EBITDA.
Operating Free Cash flow (EBITDAaL – Capex)	It is computed by subtracting capex from EBITDAaL.
Price-Earnings Ratio – P/E Ratio	It is computed by dividing the closing market price (BSE) as at end of the relevant period by the earnings per basic share for the relevant period (LTM).
Profit / (Loss) after current tax expense	It is not an Ind-AS measure and is defined as Profit / (Loss) before taxation adjusted for current tax expense.
Return On Capital Employed (ROCE)	For the full year ended March 31 2023, 2024 and 2025, ROCE is computed by dividing the EBIT for the period by the average (of opening & Closing) Capital employed. For the quarterly computation, it is computed by dividing the EBIT (annualized for the relevant period) by average capital employed. Average capital employed is calculated by considering average of opening and closing capital employed for the relevant period).
Return On Equity (Post Tax)	For the full year ended March 31 2023, 2024 and 2025, it is computed by dividing net profit for the period by the average (of opening and closing) Equity attributable to equity holders of parent. For the quarterly computations, it is computed by dividing net profit for the preceding (last) 12 months from the end of the relevant period by the average equity attributable to equity holders of parent (Average parent equity is calculated by considering average of opening and closing parent equity for the relevant period).
Return On Equity (Pre Tax)	For the full year ended March 31 2023, 2024 and 2025, it is computed by dividing profit before tax & MI (after exceptional items) for the period by the average (of opening and closing) total Equity. For the quarterly computations, it is computed by dividing profit before tax & MI (after exceptional items) for the preceding (last) 12 months from the end of the relevant period by the average total equity (Average total equity is calculated by considering average of opening and closing total equity for the relevant period).
Revenue per Site per month	Revenue per Site per month is computed by dividing the total mobile revenues, excluding sale of goods (if any) during the relevant period by the average sites; and dividing the result by the number of months in the relevant period.
Total Equity	Includes equity attributable to shareholders (both parent and non-controlling interest).
Total MBs on Network	Includes total MBs consumed on the network (uploaded & downloaded) on our network during the relevant period.
Towers	Infrastructure located at a site which is permitted by applicable law to be shared, including, but not limited to, the tower, shelter, diesel generator sets and other alternate energy sources, battery banks, air conditioners and electrical works. Towers as referred to are revenue generating Towers.
Total Operating Expenses	It is defined as sum of employee costs, network operations costs and selling, general and administrative cost for the relevant period.
Voice Minutes of Usage per Customer per month	It is calculated by dividing the voice minutes of usage on our network during the relevant period by the average customers; and dividing the result by the number of months in the relevant period.
